FileSolve Partners With Hyland Software

CHARLOTTE, NC--(Marketwired - Sep 16, 2015) – FileSolve, a division of Patterson Pope and leading provider of information governance solutions, and Hyland Software, one of the world's largest and fastest growing independent providers of enterprise content management (ECM) software, are partnering to help customers with seamless, end-to-end content management for the entire ECM process -- capture, manage, access, integrate, measure, and store.

FileSolve will now offer its customers OnBase by Hyland, a world-class ECM solution, and help to integrate the solution with customers' legacy systems to avoid redesigning existing ECM processes while preserving and improving employee productivity. In addition to implementing and supporting OnBase, FileSolve provides products and services to customers seeking customized solutions designed to solve their unique content management needs.

"Our partnership with FileSolve will be truly beneficial to help potential customers make a more informed decision when looking to purchase ECM software. Employees at FileSolve know the electronic content management industry and how organizations within that industry are best able to solve their pain points with OnBase, Hyland's enterprise content management solution suite," said Bill Kavanaugh, director of U.S. channel sales for Hyland Software.

"We are dedicated to providing technology that solves everyday content management problems for today's organizations," said Peter Ransome, president, FileSolve. "By partnering with Hyland Software, we now give our customers access to their award-winning OnBase solution that is rich in product functionality and directly service customers to ensure they leverage the value offered by this ECM solution to address their needs."

About Hyland Software

For over 20 years, Hyland Software has helped our more than 11,300 lifetime customers by providing real-world solutions to everyday business challenges.
